

CONVENTION OF WOMEN'S CLUBS

Opening Session of the Federation Meeting at Los Angeles Took

COLOR LINE ISSUES

Session Promised To Be In Interest, and Will Feature with Hot Debate.

FIGHT FOR PRESIDENT

Los Angeles, Cal., May 1.—The second national biennial convention of women's clubs began its sessions here today and promises to be full of stirring interest and to them will be hot debate. The bones of contention will be, first, the color line; second, the selection of a new president, and, third, the next meeting place of the federation.

Lively Color Issue.
Some of the delegates were heard to say that they will not affiliate with the general body if it will enroll colored women. On the other side are the women who believe it their duty to assist the negro sisters to rise in social and intellectual standing by admitting them to the organization on a basis of equality. It is believed the issue will be settled at this meeting.

The presidency fight is between the east and the Pacific coast. Mrs. Denison of New York and Mrs. Robert J. Burdette are the contestants.

Hope for Mrs. Morris.
Mrs. C. S. Morris, of Berlin, Wis., will have the enthusiastic support of most of the Wisconsin delegates. If she allows her name to be used in the canvass for president. The fact that she was called home from Los Angeles by a death in her family has made her candidacy uncertain. Mrs. Morris has never shown any ambition to hold office and twice before she declined to be brought before the convention. When it is known that she will be a candidate Wisconsin members will unite for her as it is acknowledged that she is splendidly qualified for the highest office in the gift of the general federation.

Mrs. Denison Among Foremost.
Foremost among the candidates is Mrs. Dennis T. S. Denison of New York, now vice president of the general federation. Mrs. Denison, who was formerly president of Sorosis, may not have the undivided support of her delegation, for it will be remembered that when New York went to New York City to elect for Mrs. William Todd Edmunds for president Mrs. Denison compromised by allowing herself to be elected vice president.

Many Re-Organization Schemes.
Mrs. Robert Burdette of California will have a number of supporters among the Western delegates, although Wisconsin is lukewarm concerning her. Some of the Illinois women are opposed to Mrs. Burdette because she visited twenty-five states and thus took an unfair advantage of other candidates.

Re-organization schemes are as numerous as luncheon baskets among the delegates. Circulars and newspaper clippings have been generously distributed. The plans that aim at the dropping out of the individual clubs are likely to come to naught, however.

BIG TOBACCO DEAL IS BEING FORMED

The Continental Has Acquired the American Cigar Company, and Thus Strengthened the Trust.

New York, April 30.—An important movement in the battle for the control of the tobacco market of the world will be made on Thursday when the Continental Tobacco Company and the American Cigar Company, through new management, become practically one concern. The Continental buys the whole manufactured stock of the American. This is a long stride in the carrying out of President Duke's plan for a greater tobacco trust. Control of the tobacco output of Cuba is almost in the hands of the Duke family, and President Duke has been heard to say that the trust could afford to lose \$5,000,000 to get control of the market of the British empire.

That measures to realize the latter are now under way is indicated by the presence in the city of the Ogden's, Britain's greatest manufacturers of cigarettes. In whose business the American Tobacco Company has already bought a big interest. The Ogden's are here for consultation with the heads of the tobacco trust and further important developments are expected to follow the new arrangements between the Continental and the American Cigar concern.

The tobacco trust, through one concern, now controls the American Tobacco Company, capitalized at \$30,000,000; the Continental Tobacco Company, capitalized at \$100,000,000; and the Havana American Company, \$3,000,000. Besides that it is reaching out in England, having already gained a controlling interest in the big Ogden concerns.

Supt. H. C. Buell, one of the state inspectors of Normal Schools, went to Plattville today, to inspect the Normal school.

ANDREW CARNEGIE HAS NEW SCHEME

Announces That He May Buy Up a Lot of American Daily Newspapers.

New York, May 1.—Just before Andrew Carnegie started for Europe he announced to the American press that he was going to buy up a lot of American daily newspapers. He said that he was not going to buy up the newspapers, but that he was going to buy up the news. He said that he was going to buy up the news, and that he was going to buy up the news. He said that he was going to buy up the news, and that he was going to buy up the news.

A photographer for a magazine appeared on the scene at this time and asked permission to snap the millionaire.

"I want to be photographed with the boys," said Mr. Carnegie, and turning to several interviewers whom he had known for years said: "Stand here close to me and we'll all get in the same picture."

BEANS ARE MUCH HIGHER IN BOSTON

Restaurant and Hotel Keepers Say Prices Have Been Advanced in Self Defense.

Boston, May 1.—There was gloom and consternation in Boston today, compared to which the effects in the price of meats was sunshine. It was caused by the restaurant keepers, who advanced the price of a plate of beans from 10 to 15 cents. When asked for an explanation, the proprietor of a big restaurant said merely:

"The beef trust." "You don't mean the beef trust has cornered the bean supply," he was asked. "No, not exactly that," said the restaurateur, "but the price of chops and steaks has gone so high that we are selling nothing but beans. We had to raise the price of beans in self-defense."

GREAT EARNINGS OF JOHN P. MORGAN

His Recent Negotiations in Railway and Steamship Lines Have Netted Him \$172,500,000.

New York, May 1.—Commenting on an Associated Press dispatch from London announcing that J. Pierpont Morgan had received \$12,500,000 for engineering the steamship combine, well-informed financiers say this sum is only a small part of his receipts for similar work. It is estimated that he was paid as follows for organizing combines: United States Steel Corporation, \$100,000,000; Metropolitan Securities company, \$30,000,000; American Bridge Company, \$5,000,000; Northern Securities Company, \$15,000,000; ship combine, \$12,500,000, making a total of \$172,500,000. A majority of this is said to be in stocks of the various corporations but fully worth the equivalent in cash.

TRAVELERS MEET IN RACINE TOMORROW

Richard J. White of Milwaukee, Is Talked of for the Presidency of the State Association.

Racine, Wis., May 1.—The ninth annual convention of the Wisconsin State Travelers' protective association will be held in this city tomorrow.

Richard J. White, of Milwaukee, is talked of for the presidency. Mr. White was formerly President of Post B, and is very popular with the members throughout the state. It is said that he will receive the unanimous vote of the Milwaukee delegation, which has already been instructed to cast its vote for him. This would assure him twenty-seven of a total of sixty votes, enough from out in the state have been promised to make the choice a possible one.

A large attendance is expected as all of the 900 members in the state have been invited. From the membership of 406 in Milwaukee will be drawn the largest representation. Green Bay has eighty-seven members, Racine seventy-nine, Fond du Lac sixty-four, Oshkosh thirty-seven and other towns less.

SUDDEN DEATH ENDS A DIVORCE

Woman Claimed That Her Husband Only Gave Her Fifty Cents in Sixteen Years.

Marquette, Wis., May 1.—The unexpected death of Mary Haagenson yesterday ends a divorce suit between an aged couple.

Mrs. Haagenson had commenced an action against her husband, George Haagenson, a well-known farmer, alleging non-support. She claimed that he had given her only fifty cents in sixteen years.

Both of the parties were over seventy-five years of age.

The defendant was to make answer today, but the death of his wife, which came suddenly and unexpectedly, made this unnecessary.

Landlord James P. Gage, of Milton Junction, was in town today.

GROWING CROPS LOOK BETTER

Much-Needed Rain At Over the Central and Western States.

BIG YIELD

Snow Storm Causes a Serious Delay in the Harvesting of the Crops.

BADGER PROSPECTS

Washington, D. C., May 1.—Following is the weekly crop report issued by the climate and crop division of the Weather bureau:

General summary: Much needed and generally abundant rains fell over a large part of the Missouri, Upper Mississippi, and Lower Ohio valleys, but droughty conditions have continued in the Upper Ohio valley, middle Atlantic states, and over the Eastern Rocky Mountain slope. Rain is now generally needed over the greater part of the Southern States, more particularly in the eastern and western districts, good showers having fallen over a portion of the central gulf states.

Heavy Snow in Far West.
A heavy snow storm interfered with farm work in Montana, the Dakotas, and Minneapolis during the early part of the week and the high and drying winds of the latter part in the central valleys and middle Atlantic states were detrimental.

Considerable corn has been planted in Illinois, some in southern portions of Ohio and Iowa, and planting is well advanced in Missouri, Kansas, Kentucky and Virginia. In the Southern states corn has made good growth and is in various stages of cultivation some being ready to be laid by in Texas and Louisiana.

On the Pacific Coast
On the Pacific coast winter wheat has made favorable progress, a heavy crop being promised in California, north of Tehachapies. Over the southern portion of the spring wheat region the seedling of spring wheat is nearly completed and the early sown is coming up, and is making slow growth. The severe snow-storm of the 22nd interrupted seedling in the Red River of the North Valley.

Oats have made favorable growth in the Southern states and are generally improved in Missouri and Illinois.

The cotton states have experienced a favorable week, and cotton planting has made rapid progress in all sections, being practically finished in Texas.

The fruit outlook continues promising, except for peaches in portions of the central valleys.

In the Badger State
Wisconsin—Copious, well-distributed rains last of week beneficial to growing crop, but too cold for vegetation to make rapid progress; high winds on Tuesday caused considerable damage to fruit trees and buildings; winter wheat and rye in good condition, but making slow growth; early sown grains germinating well; meadows and pastures starting slowly; cranberry marshes being drained, winter killing about as usual, but more than last year.

DRESSED BEEF UP: ON THE HOOE DOWN

Chicago, Ill., May 1.—Despite the fact of from fifteen to thirty cents in the price of the dressed beef shows no change today. The government attorney is still reticent this morning as to the date of the filing of the bill against the packers. He removed some of the uncertainty regarding the bill when District Attorney Bethea admitted the bill may be sent to Attorney General Knox for his approval before it is filed.

Strike on in Beloit
Beloit, Wis., May 1.—True to their ultimatum in a demand for less hours and higher wages about 100 Beloit carpenters struck today.

MAY BRINGS EPIDEMIC OF STRIKES; INDICATIONS ARE VERY GLOOMY

Over 150,000 Coal Miners on Verge of Going Out—Building in Buffalo Suspended—Combined Labor Move for a Shorter Day is On.

New York, May 1.—The result of the conference between the coal operators and representatives of the United Mine Workers to decide whether there will be a strike of one hundred and fifty thousand anthracite coal miners is still unknown. It is believed that no compromise can be effected.

Buffalo, May 1.—Many of the building trades in the city are tied up today by the strike of the carpenters, plumbers and ironworkers. Sixteen contractors signed the new wage scale and there are fifty more to sign. If the increase is to be granted to the bricklayers and masons.

Pittsburg, Pa., May 1.—The indications are that over fifteen thousand men will be on a strike here today

STUES DOWN ON GREAT BRITAIN

England Warned Against the Ascendancy of the United States.

AIM OF AMERICANS

They Are Said To Be Gathering in Trade Supremacy of the World.

JOHN BULL IS EXCITED

London, May 1.—Henry Labouchere, in this week's Truth, under the heading of "Morganeering and the Moral," tells the British nation that its supremacy in trade and commerce is doomed. He says:

"To the impartial observer it is a trifle amusing to watch the perturbation of John Bull at the march of the American capitalist. For a generation or two past the gospel of the salvation of mankind by the agency of British capital has been preached with sincere conviction by British politicians. 'For fifty years we preached this gospel and acted up to it religiously. Now comes a little turning of the tables. With a much larger population and immeasurably greater natural resources, the United States offers a field for the accumulation of greater wealth than we can ever aspire to. Americans, in their turn, now aspire to regenerate the world by American capital and American enterprise. They practice upon us the doctrine which we so long applied to the rest of mankind. They acquire our underground railways with the kindly view of showing how to work those antiquated undertakings profitably. They propose to provide poor old London with tramways and tubes which its people are too poor or too stupid to construct for themselves. They acquire half of the tobacco trade of these islands to confer upon us the benefits of being supplied with American goods on American principles. Lastly—for the present—they lay sacrilegious hands on the shipping by means of which Britannia rules the waves.'"

"No wonder John Bull is in a comic state of consternation. The world from his point of view is being turned completely upside down. He is no longer 'on top' but underneath. Instead of the exploiter he is becoming exploited."

Trade Supremacy Menaced
"Our supremacy in trade is not only threatened, but doomed. 'At the moment while we are thus engaged, J. Pierpont Morgan and his colleagues descend upon us, seeking what they may devour, one day snapping up a whole industry, the next capturing half a dozen lines of British steamers. 'Almost within an hour of the king's feast come forth the fingers of a man's hand and write upon the wall. It needs no prophet in this case to interpret the writing. It is easy to read the warning and not difficult to accept and act upon it. 'Shall we attend to it at once, or shall we finish our wine and think about the Medes and Persians after the dinner?'"

MR. STONE GROWING WEAKER

Lieutenant Governor Retains Food, But Makes No Improvement. Watertown, N. Y., May 1.—The condition of Lieutenant Governor Stone is practically unchanged. He is growing weaker and spends a considerable portion of the time in sleep. He is able to take and retain food, but there is no change in his condition.

Epworth League at LaCrosse
La Crosse, Wis., May 1.—The tenth annual convention of the Wisconsin State Epworth League began in this city today. Over 500 delegates are here. The first day's program will consist mainly of a reception at the First M. E. church.

Miss Kate North, who has been the guest of Mr. and Mrs. E. C. Johnson several days, has returned to Delavan.

TOM THUNDER HAS SHOWN UP AGAIN

Indian Chief Surprised to Hear That White Men Thought Him In Happy Hunting Grounds.

Chicago, May 1.—Tom Thunder, the Winnebago chief, has been shown up again. He has been in the newspapers of the country for some time, in spite of the fact that half the newspapers of the country have just advertised his departure. Thunder arrived here today in fairly good health, and when he was shown the detailed accounts of his alleged accidental drowning in the Mississippi his face was beyond control. "Do I look dead?" he screamed. "Feel me!"

The self-styled chief claims that the reports of his demise are due to the machinations of Tom Roddy of Chicago, who was selected by the late chief Black Hawk as successor to the chieftainship. Two years ago Roddy and Thunder agreed to fight a duel with hatchets to settle the question, but the tribe would not allow the fight to come off and elected Roddy chief.

The Indians think that Thunder is really dead and regard him as a ghost of himself.

ALL IS QUIET IN MILWAUKEE TODAY

No Indications of Serious Troubles in Labor Circles in the Cream City.

Milwaukee, May 1.—The indications this morning are that there will be no serious difficulty in any trade today in this city.

The threatened troubles with the plumbers over their new demands will not materialize, according to statements made today by master plumbers, although not all of the demands of the men have been granted. It is said that nearly all the large plumbing firms in Milwaukee have conceded the advance in wages asked by the men.

Beginning today the iron workers will receive 40 cents an hour instead of 30 cents, and the bricklayers and stone masons have obtained their demand of 50 cents an hour instead of 45 cents. The hod carriers will receive 30 cents an hour here after instead of 25 cents, and the wood workers and carpenters have obtained advances of 25 to 30 cents and 30 to 35 cents an hour respectively. The sheet metal workers have also effected a satisfactory settlement and have received an advance from 25 cents an hour to 27 1/2 cents.

RELIEF FOR CUBANS

President Says If Congress Adjourns Without Doing Anything, He Will Call Extra Session.

Washington, May 1.—President Roosevelt declared today that he would call a special session of congress in case the present session comes to an end without some action for the relief of Cuba.

He told a senator last evening that if Congress adjourns without doing something in the line of Cuban reciprocity he would instantly call it back to finish its work.

The president said that he did not care so much what form the bill should finally take; that he was willing to leave to the judgment of the legislators.

"But relief for Cuba is one of the things that simply must be done," he declared.

BADGER AID FOR THE MCKINLEY FUND

Subscriptions in This State Will Reach Over \$12,000 for the Canton Memorial.

Milwaukee, May 1.—The Wisconsin subscriptions to the McKinley memorial fund have reached a total of \$3,034, and Trustee Win A. Nowell has advised from several auxiliary committees of the state to the effect that here are in their hands a sufficient amount to make the fund over \$12,000. This will be turned in, in a few days, already \$10,000 of the amount has been forwarded to Treasurer Myron T. Herrick of the national association at Cleveland, O.

PHOTO OF ACTRESS IS NOT IMMORAL

Woman on Stage May Have Picture Taken, Not Proper for a Sunday School Teacher.

New York, May 1.—"Your profession furnishes the key note to your character. You may do things as a lawyer which might bar a banker from polite society."

"If, being a millionaire, you make your own dresses, you may not stand half so high among your friends as if, being a dressmaker, you made gowns for other folks."

"Similarly, being an actress, you may have photographs taken which posed by a Sunday School teacher would bar her out of meeting."

This is the dictum of Justice Spencer of the supreme court of Montgomery county in passing upon the application of George G. VanBuren, a divorced man, for release from further payment of alimony and for the custody of his child because his former wife, Mal Leroy VanBuren has gone on the stage and had her picture taken in what the legal papers describe as an "immoral attitude."

INSTRUCT THE TAX ASSESSORS

Average Valuations of the Different Classes of Property in the City of Milwaukee.

IT IS NOT LEGAL

Strict Mandate to Assess All Property Not Expressly Exempt from Tax.

EACH ITEM SEPARATE

Madison, Wis., May 1.—(Special)—Average valuations of different classes of property, which has been common in many counties in the state by assessors and boards and committees on equalization, will have to be dropped back among the obsolete customs of by-gone ages, if the instructions of the state tax commission are carried into effect.

The commission gives these instructions in a letter to B. J. Morse, supervisor of assessments for Waushara county who wrote that the assessors of his county at their annual meeting fixed an average rate on cows, horses, sheep and hogs, and that a motion was made to exempt entirely young lambs, pigs, calves, colts and poultry, but that he would not allow it to be made a rule. The report that a schedule of valuation had been fixed in Racine county was also referred to by Mr. Morse, who asked for instructions.

Assessors Must Obey Law.
"You were entirely correct," the commission says in reply, "in ruling out the motion to exempt young lambs, calves, pigs and poultry from taxation. The legislature is the law making body of the state having sole power to prescribe the property which shall be exempt from taxation. No supervisor of assessment, assessor or body of assessors have the slightest authority to determine that property which the legislature has declared shall be assessed, may be exempt. 'Assessors cannot assume the functions of the legislature. On the contrary, they are in every respect subject to the law as enacted, and absolutely bound to obey. Its mandates by assessing all property of every kind not expressly exempt from taxation."

"On the resolution itself attempting to fix an average price on cows, horses, sheep, etc., it is sufficient to say that there is no provision of our statutes permitting assessments on the basis of averages. The resolution in effect fixes an arbitrary valuation on the property therein specified."

Must Take Actual View.
"The law contemplates that all articles of personal property is each assessment district shall be valued by the assessor from actual view and all elements affecting the value considered in the assessment. The committee in fixing a scale of values cannot do so from actual view of all the property in the county. The plan of assessing personal property by committee or resolution is an usurpation of the obligation and duty imposed upon each individual assessor to fix the value from actual view as far as practicable. It may be the desire of the assessors to adopt a sort of scale of values for different classes of property and possibly this tendency may not be wholly overcome for some time."

To a considerable extent this course relieves them from the responsibility of exercising independent judgment as to various articles, and is frequently resorted to as an excuse for not discharging their duty according to the legal rule.

Supreme Court Decisions.
"But the provisions of the law governing the valuation of property for taxation are framed upon the theory that each article of personal property and each parcel of real estate differs from each other in value so far as to prevent their being sorted into classes to any considerable extent for purposes of assessment. The law contemplates that each item or parcel must be separately valued with reference to its own peculiar conditions or characteristics so far as its value is affected thereby."

Decisions of the state supreme court are quoted as authority for this requirement, the commission saying in conclusion:

"We think that it is wise that the assessors of your county should be advised that the assessment of real or personal property by classifications at fixed scales is illegal, and that each parcel of real estate and each article of personal property must be separately valued according to the laws governing assessments in this state."

DR. ORONHYATCHKA FOR CHIEF RANGER

Independent Order of Foresters in Session at Los Angeles—Milwaukee Wants Next Convention.

Los Angeles, Cal., May 1.—At today's session of the Independent Order of Foresters Dr. Oronhyatchka was reelected supreme chief ranger by acclamation, and Judge Medlenburg of New Brunswick as past supreme ranger. Kansas City, Boston, Milwaukee and Quebec are in the field for the next convention.

ANNUAL FIESTA DE LAS FLORES; GRAND SPECTACLE AT LOS ANGELES

Women of the Federated Clubs Gathered in the California City Will Be Entertained with a Unique and Splendid Parade.

The sixth biennial meeting of the Federation of Women's Clubs, which opens at Los Angeles for an eight days' session today will signalize the running of the first women's special train and gather together more prominent club women than any previous event has yet brought together.

The movement, which received its greatest impetus at the Chicago World's Fair, when Mrs. Potter Palmer lent her best efforts to the furtherance of the club idea, although never really a club woman herself, has been growing ever since, and now is represented by a body of women constituting the best element of American womanhood.

From the program mapped out the convention should not only be a result of good results to club life but also prove a very pleasant outing for those who participate in it.

Among the prominent features of the week at Los Angeles will be the celebration of the annual Fiesta de las Flores, the date of which has been changed in honor of the visitors.

Few, but those who have seen it have any idea of what a beautiful spectacle this festival is. It is looked upon by the people of the Pacific coast as is Mardi Gras by the residents of the South. Months of preparation are required for the celebration of the Fiesta, the opening event of which is a grand procession in honor of the queen. The royal court is set up in one of the city parks, where a stand capable of accommodating from 10,000 to 20,000 people is provided. The queen of the Fiesta is selected on account of her beauty. She generally belongs to one of the wealthy old families of the state and her maids are chosen from the oldest and best families.

The queen and her court arrive at the throne in open carriages so completely covered with roses, heliotrope wisteria and carnations that not a particle of the vehicles can be seen beneath the floral covering. Each vehicle is drawn by four or six milk-white horses in harnesses wrapped in white satin ribbons, and driven by coachmen in full suits of blue and cream satin.

A blast is blown by the royal trumpet, and the procession of the day moves past the throne for two hours. The governor and his staff first pass by, then come the various officials of the state and city.

Next follow regiments and companies of the California militia, hundreds of expert horsemen from among the Spanish residents of southern California all dressed in short velvet jackets, with puffed sleeves of red silk, and wearing spangled trousers and huge jingling spurs. There are throngs of other Spanish equestrians from every part of the state, and many of them perform brief and neat bits of fancy riding before the queen as the cavalcade moves along. Large numbers of carefully and ingeniously constructed floats, each of which typify a product of southern California, pass by.

But the Indian and Chinese features of the procession are the most unique. For weeks, committees of arrangements have been planning for these. There are several tribes of the Pueblos and of the Mission Indians who join in homage to the queen. Truly, no savages were ever more gorgeously arrayed than these. The Pueblos are the descendants of the ancient Aztecs, who built the strange houses away up among the rocky cliffs of canyons and mountains in New Mexico and Arizona ages before Cortez and Montezuma. The Mission Indians are to be in full war paint

MRS. IDA L. ROSER

Grand-Niece of Ex-President James K. Polk, Writes to Mrs. Pinkham Saying:

"DEAR MRS. PINKHAM:—I have been married for nearly two years, and so far have not been blessed with a child. I have, however, suffered with a complication of female troubles and painful menstruation, until very recently.

MRS. IDA L. ROSER.

"The value of Lydia E. Pinkham's Vegetable Compound was called to my attention by an intimate friend, whose life had simply been a torture with inflammation and ulceration, and a few bottles of your Compound cured her; she can hardly believe it herself to-day, she enjoys such blessed health. I took four bottles of your Compound and consider myself cured. I am once more in fine health and spirits; my domestic and official duties all seem easy now, for I feel so strong I can do three times what I used to do. You have a host of friends in Denver, and among the best count. Yours very gratefully,—Mrs. Ida L. Roser, 226 18th Ave., Denver, Col.—\$5000 forfeit if above testimonial is not genuine.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free.

and this is the first time in years they have been permitted to leave their reservation in Temecula Valley and go among the pale-faces.

Probably never before was there such a pageant as that prepared by the Chinese of California in honor of the queen of the Fiesta. The thousands of Celestials in the state each contribute a share toward the celebration. They have sent to China for gowns and horse-trappings that have never been out of their native land. They have drilled their orchestras for the rendition of their own peculiar music, and they have planned and schemed for days to produce the most extravagant effect in color. There is to be a long line of Chinese horsemen, dressed and arrayed as if for war, then will follow a procession of Chinamen, wearing elaborate woven cloaks and wonderful head-gears, each representative of a Chinese dynasty or epoch from earliest history.

Many of the embroidered and flaming cloaks will reach almost to the feet of the horses on which the wearers ride, and all of them must have consumed years of patient labor and have cost a great amount of money. The all-important feature of the parade will be an enormous Chinese dragon. It belongs to a society of Chinese in Pekin, and was loaned to their brothers in Los Angeles for this occasion and is very old. It is 300 feet long and has a head as large as a hog's head. It is made of brass, tinsel, velvet, metal springs and a peculiar sort of paper mache known only to the Chinese. It will be borne on the shoulders of Chinamen, who are concealed by a veil of silk that reaches to the ground.

The illuminations, naturally, will be devoted to honoring the clubs and will be reproductions of federation color, design and motto in every device which can possibly be thought of.

The program for the week has been arranged by the national committee, but in deference to the hostesses' rights, Mrs. J. E. Cowles, who is president of the local board, will furnish the first evening's entertainment.

At this function the municipal officers of Los Angeles will unite with the club women of California in a general welcome to the visitors and a large reception will be given on the evening of May 1 at one of the prominent hotels of the city.

The new Shakespeare club it is ready for the reception of visitors. It is a beautiful structure, modelled after the old English style. The Woman's Club house will also be a conspicuous rallying point.

Prominent in the Eastern party will be Mrs. Dennison of New York, first vice-president of the federation, who has for the past year been acting president during the sickness of Mrs. Lowe. Mrs. Dennison is a first choice for president, but probably will only accept the office under strong pressure, as she feels that she should have a rest. Mrs. Dennison is the president of the Sorosis and is a very brilliant, withal modest woman. The only other choice for the presidency, thus far voiced, is Mrs. Decker of Colorado, who is a strong supporter of Mrs. Dennison.

The next most prominent woman from the east is Mrs. Fanny Humphreys Gaffney of New York, who is one of the honorary presidents of the National Council of Women, was a former president and will go as a delegate from New York state. Mrs. Gaffney carries new honors with her, having recently been appointed editor of Truth, which is hereafter to bear the subtitle of A Forum for Women.

Mrs. Lowe, who has been steadily regaining her health during the past few months will, of course, be one of the party from the south and will gracefully yield her sceptre to the appointed president.

Mrs. E. M. Mumford, who is a vice-president of the federation and has long been prominently identified with club life, will read an important paper at Los Angeles. Others who formed the vanguard of the party from the east are Mrs. C. Stevenson, Mrs. J. Scrimgeour and Mrs. Zabriskie. Many important points on the way to California will be visited by the delegates enroute.

"Uncle Josh Spruceby." A plain story told in simple yet dramatic language which interprets the lives and actions of really honest people has always claimed the undivided admiration of the play-going public. If such a tale is well staged and dramatically rendered it immediately becomes an epoch creation of the dramatic cycle. While "Uncle Josh Spruceby" does not lay claim to being the most original play of its kind that has been offered to the public, yet it makers do say it is one of the kind of stage stories that will please the masses, from the top to the lower floors of any theater in which it will be produced. It will appear at the Myers Grand to night.

For A Beautiful City

Rev. Richard L. Vaughn, W. P. Sayles and Mrs. W. G. Wheeler, the committee appointed at the last meeting of the Twilight club for the purpose of promoting the beautifying of the public parks and other places have taken up the work and will give it their personal attention during the summer. They have quite a sum of money promised them and others who are interested in this work can help it along by leaving any addition they wish to make to the fund with any member of the committee.

Miss Julia Echan has returned home from a winter's sojourn in California.

MAGAZINES

The Outlook is making a special feature of printing single-page portraits and sketches of people of immediate note. The May Magazine Number contains such portraits and sketches of Donald G. Mitchell (the "Marvel"), who has just passed his eightieth birthday; James R. Gardfield the new Civil Service Commissioner; Frank P. Sargent, who is to be the new Immigration Commissioner and Henry Clay Evans, who has lately resigned the office of Commissioner of Pensions.

The editorial department of the Review of Reviews for May gives an excellent summary and exposition of the various measures before Congress. There are also illuminating paragraphs on foreign politics—the French election, affairs in the far East and the South African situation, with discriminating comment on the career of Cecil Rhodes and the purpose and probable results of his remarkable benefactions.

Mr. Walter H. Page, formerly editor of the Atlantic Monthly, but now the editor of the World's Work, contributes to the May Atlantic a sparkling and vigorous paper entitled, "The Rebuilding of Old Commonwealths," in which he sketches picturesquely the effects of slavery, "which picked all Southern life and left it just as it found it." Mr. Page declares that the way in the "training of the untrained masses," in other words, through popular education untrammeled by political or race differences. As a Southerner himself, as a life-long observer of Southern social problems, and as one of the most prominent workers in the latest movement for popular education in the South, Mr. Page's hopeful and wholesome utterances will have great weight.

An air of Spring prevades Scribner's Magazine for May. It contains a beautiful drawing in color by Henry McCarter to illustrate Helne's "May-Song"; there is a breezy salt-water narrative by James B. Connolly who gives his adventures "On a North Sea Snack" (illustrated by M. J. Burns)—another of these inimitable fishing sketches which have already put Mr. Connolly in the first rank of writers of the sea; an exciting "Fight with a Muskallonge," by John R. Rathorn, who in a very brief space gives the reader all the sensations that an expert fisherman gets in landing a gummy fish (illustrated with a spirited picture of A. B. Frost); and there is an "Early May" poem by John Burroughs.

The May number of Everybody's Magazine opens with a most interesting article by Dr. Henry Gannette on "Famous American Mountains," superbly illustrated with photographs of the notable peaks of the Rockies, the Sierras and the Alaskan Range. Especially timely is T. P. O'Connor's estimate of Cecil Rhodes—the "Napoleon of South Africa." It is a skilful character study, representing the curious admixture of traits which make Mr. Rhodes the great personality of his period. Another valuable contribution is Dr. H. W. Wiley's "Man as a Machine," in which the functions of the human body are compared with mechanical processes.

For the indoor amusement of the little folks get a sand table, such as is used in the Kindergarten. It is six feet long, thirty inches wide and twenty-four inches high. The tray, which is four inches deep, is pointed and varnished inside. It holds a quantity of moist sand which can be moulded into different shapes and used in a variety of ways, as, for instance, to represent a garden, a range of hills, the course of a river, etc.—My Ladies' Home Journal.

May Use an Automobile The American Express Co. may try the experiment of replacing one of their delivery wagons in this city by an automobile. The problem of keeping horses is quite a serious one to the company and they are satisfied that one of the automobiles built for delivery purposes would work all right in this city, especially in the business portion. There are no bad hills to climb and the streets are in pretty fair shape, so there are no hard problems in that line to overcome and there should be no difficulty in operating it in this city at a reduction of cost over keeping a horse and wagon.

HAVE HYDROPHOBIA AMONG THE CATTLE

People of the Towns of Center and Magnolia, Fear the Bites of a Mad Dog

People in the towns of Center and Magnolia are expecting an outbreak of hydrophobia among their cattle and other live stock, on account of a dog suffering from the disease who made a trip through their towns last week.

The dog belonged to a German residing near the creamery in the town of Center. He was taken with the rabies last week and before he was killed had traversed the width of the two towns and during his trip bit eighteen dogs and several head of cattle.

Vigorous efforts have been made by the farmers to stamp out the disease before it spreads and already fourteen dogs have been killed, that were known to have been bitten by the mad dog. The cattle that were bitten have been quarantined and will be treated for the trouble.

EXPECT TO FINISH NEW ROAD BY JUNE 1

Section of Mew Electric Road in Janesville is Nearly Ready for Use of the Cars.

The Hayes Bros. force on South Franklin St. who are laying track for the Janesville and Beloit electric line have reached Pleasant street with the rails and will have the ties and rails from Pleasant to West Milwaukee street in place by Thursday night. The excavation from Pleasant to Milwaukee street will be completed by this evening. There is some work being made by the aldermen of the Fourth ward and the city engineer in regard to the macadam work being done along the line on account of the roller not being used to press the stone firmly in place. They say that it is not macadam that will be accepted by the city, when the time comes to pave the street. Their reasons for making the protest are, that the space between the ties are filled with gravel, and the balance from the ties to the level of the rails is filled in with stone. Inside of another year the gravel between the ties will settle and allow the stone to sink down, while the stone on top of the ties will maintain its level and the street between the rails will be filled with hills and hollows. They claim that this might be obviated by the use of the roller. H. H. Jackson who is here in the interests of the road is satisfied that it will be running from Beloit here by August first and between Beloit and Rockford by June first.

Dyspepsia

Is difficult digestion, due to a weakened condition of the stomach and its inability to properly churn the food; or to unhealthy condition of the gastric juice, too much or too little acid, too much or too little pepsin.

Hood's Sarsaparilla relieves all the distressing symptoms of dyspepsia because it promotes the muscular action of the stomach and intestines, aids nature in the manufacture of her own digestive secretions, which are far better than any artificial pepsin, unlocks the bowels, stimulates the kidneys and tones up their mucous membranes. So prompt is its effect in many cases that it seems to have almost a magic touch. Begin to take it NOW.

Suffered Everything—"I was troubled with dyspepsia, suffered everything but death, could not eat without terrible distress. Since taking Hood's Sarsaparilla I eat heartily and I am well." Mrs. E. C. McNair, Danbury, Conn.

Eat Three Times a Day—"Hood's Sarsaparilla has cured me of dyspepsia and I never felt better. Can eat three good meals every day." FRED POEHLER, 437 South Penna St., Indianapolis, Ind.

YOUR BLOOD IN MAY MUST PRODUCE TRUE VITALITY OR DISEASE

PAINE'S CELERY COMPOUND

Expels All Winter Impurities and Poisons from the Blood and Builds Up the Entire System.

An Astonishing Proof of Blood Cleansing and Restoration to Complete Health.

True health can only be maintained by keeping the body free of acid and sluggish blood and morbid waste matters. The blood that is pumped through the heart to all parts of the body, carries nourishment and health or poison and the seeds of death.

Close confinement in badly ventilated offices, stores, workshops during the winter months, has lowered the vitality of tens of thousands. Poisons and impurities have been implanted in the blood; these agents of death must be expelled if health would be maintained during the coming summer.

The month of May should be renovating and building up time with the vast army of weak, debilitated, and broken down men, women and young people.

If the work of purifying and vitalizing the blood be longer deferred, eruptions, blotches, sores, eczema, scurfiness, erysipelas, and other dangers, are sure to be your portion.

Paine's Celery Compound meets successfully at this season all unhealthy conditions of the blood. It is the only medicine that can guarantee purification of the vital fluid; that can give true nutriment to the nerves vigor and strength for the enjoyment of summer and the prosecution of life's duties.

Mr. George Schmidt, 20 West 3rd St., Cincinnati, Ohio, briefly and forcibly writes regarding his rescue from a slow but sure death; he says: "Since infancy I have been bothered with impure blood and nervousness. I tried almost all known remedies and went to many physicians, but nothing seemed to do me any good until a druggist recommended Paine's Celery Compound. I used this great medicine, and before I had finished two bottles, I found relief. I am now using my sixth bottle and never felt better in my life. My nervousness is all gone and my skin clearer than ever it was."

Family cares and duties do not weigh down the well woman, and the children are never in her way. But when the womanly health fails, and there is a constant struggle with weakness and pain, household duties are a burden almost past bearing, and children are a ceaseless annoyance and worry.

Weak women are made strong and sick women are made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries disagreeable drains, heals inflammation and ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I had been ailing some time, troubled with female weakness," writes Mrs. Wm. H. Johnson of Avondale, Chester Co., Pa. "Every month I would have to lie on my back. I tried many different medicines and nothing gave me relief until I began Dr. Pierce's medicine, using two bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery.' These medicines have cured me. When I began your treatment I was not able to do very much, but now I do the work for my family of nine, and feel better to-day than I have for a year. I thank you, doctor, from the bottom of my heart, for well do I know that you are the one who cured me."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Dr. Pierce's Pleasant Pellets are the best laxative for family use.

FAIL TO AGREE ON MINERS' SCALE

Two Days Spent in an Endeavor to Reach an Agreement.

TO HOLD ANOTHER MEETING

Officers of the United Mine Workers and Representatives of the Operators Confer Under the Auspices of the National Civic Federation.

New York, May 1.—After spending two entire days in endeavoring to arrive at a settlement of their differences, the operators and representatives of the United Mine Workers of America have again referred their troubles to a committee. The probability is that another meeting will take place either Friday or Saturday.

"Our conference with the operators," said President Mitchell of the United Mine Workers, "has been brought to a close. According to an arrangement with the federation by which the conference committee was appointed we are to report to that body at a meeting, the date of which has yet to be determined."

A little later, a "general statement" was given out by the representatives of the big coal concerns of the conference. President George F. Baer of the Philadelphia & Reading Coal and Iron company acted as spokesman for the coal companies. "Under the arrangement with the Federation," said he, "it was understood that the report of this committee should be made to that body. Until that body meets we cannot make a report to anybody."

The operators seemed in a happy frame of mind. Nor did the miners seem in any degree downcast, and the consensus of opinion among outsiders was that some progress had been made toward an amicable settlement.

J. STERLING MORTON BURIED
Many Pay Last Tribute to the Dead
Nebraska Statesman.

Nebraska City, Neb., May 1.—Funeral services over the remains of J. Sterling Morton were held at noon yesterday in Arbor Lodge, his late residence. During part of the day the stores were closed and the people viewed the remains at the public library, where they lay in state. Among the organizations which attended the funeral were the city council and the Louisiana Purchase exposition Nebraska commission. Governor Savage and his staff and a large number of former associates and friends of Mr. Morton were present.

The Rev. A. E. Knickerbocker of this city officiated at the funeral service, being assisted by the Rev. F. W. Eason of Lincoln and other clergymen of this city. The interment was at Wyuka cemetery, beside the graves of Mr. Morton's wife and Carl Morton, his son.

WEATHER FORECAST.

LA FOLLETTE AND SPOONER

Those partisans of LaFollette who allege that there is a harmonious understanding between LaFollette and Senator Spooner and who profess to believe that the slogan of the faction will be Spooner and LaFollette have cause sufficient to be disillusioned when they consider the action of the convention at Richland Center in the early part of last week. It has been conceded on all sides that here was a LaFollette stronghold, yet so strong was the feeling against the administration that an outsider was engaged for the sole purpose of stampeding the delegates. His address was characterized by the viciousness and acerbity of a demagogue and to cap the climax, this outsider assumed the prerogatives of a delegate, introducing a resolution endorsing the governor, which resolution passed in this LaFollette stronghold by a scant majority of five.

But this was not all. A regular delegate, not an outsider, a gentleman who had the privilege of the floor not by political maneuverings, but by the vote of his party, introduced a resolution warmly endorsing Senator Spooner. The motion was duly seconded, yet in spite of this the chairman, a rabid LaFollette partisan, refused to put it to the convention and had the mover been less enthusiastic the convention run by LaFollette's henchmen in the interest of LaFollette would have adjourned without going on record as to Spooner, keeping in line with the policy of the Governor since it became evident that the senatorship would be one of the issues of the campaign.

Fortunately the delegate, nothing daunted, put the resolution to the convention himself, which the chairman refused to put, and it passed with but few dissenting voices, coming from those who had cried themselves hoarse in endorsing for LaFollette.

Do the friends of Spooner still hold that the cry can be Spooner and LaFollette?—Sawboygan Telegram

THE VOTER'S HAND BOOK.

"The Voters' Handbook" constitutes one of the recent contributions to the campaign literature furnished by the LaFollette faction. It consists of 144 pages, most of it reproduced from The Milwaukee Free Press. Eleven pages are devoted to the subject of the "corruption of the press" and a liberal amount of space is given to a reproduction of the governor's speeches. Its circulation in Fond du Lac county will not be the occasion of any alarm on the part of the stalwarts.—Fond du Lac Commonwealth.

The handbook referred to is being scattered over the state, for the consolation of the faithful. A large portion of the book is composed of reprint from the columns of the Governor's organ in Milwaukee, and a rehash of the public utterances of the chief executive. There is nothing new or startling about it, and as a vote getter, it will prove disappointing.

Thed ay has passed when the average voter will devote his time to a volume of 150 pages, in an eager effort to find out something about the character of a man who is making political history every day. There is no romance about the story, and it lacks the interest of a dictionary, because it is destitute of information.

THE OLEOMARGARINE BILL

The bill is a disappointing example of class legislation, from the standpoint of the consumer, who must now purchase colored butter at a high price or eat uncolored oleomargarine. It carries no provision for the sanitary inspection of creameries but it is particularly as to the condition of butterine factories. The butter market will now be more largely in the hands of the creamery trust, which can do as it pleases with the supply, and in turn with prices. The Elgin board, which controls the price of creamery butter each week, has lately been playing ping pong with rates. It has been raising and dropping them at 3 cent clips; and in an eccentric mood yesterday dropped the price from 30 to 22 cents, although the price of fodder is just as high as it was a week ago, when the claim of extra cost of production was made in support of the 30-cent rate. Perhaps next week the butter magnates may boost the price back 8 or 10 cents.—Evening Wisconsin.

The Evening Wisconsin, after analyzing the bill, comments as quoted. The paper takes the position of all public journals which are not prejudiced. The centers of population, whether large or small, will suffer as the result of this "oleo" legislation, and no one will be benefited except a comparatively limited class. Oleomargarine is as wholesome as dairy butter, both are colored to add to attractiveness, and when the imitation is sold on its merits, there is neither fraud nor deception attached. The bill was an unwise measure, and the masses

who are injured by it, will not be slow in protesting.

A CANDIDATE FOR SENATOR

We believe that the period in the silent insistence of Senator John C. Spooner has now been reached where all honorable men must take him at his word, even were he disposed to break it. He is not a candidate for re-election to the senate, he has not been and he cannot be. This he himself realizes, and it is this realization that has caused him to insist by silence that he must keep his word as it was pledged to his long-time friends and supporters nearly two years ago in his memorable letter of "unalterable determination."—LaCrosse Chronicle.

The LaCrosse Chronicle, one of the recognized organs of the Governor, introduces an editorial on the Senatorial situation, with the paragraph quoted. There is no uncertainty about the attitude of the paper, and after reading Senator Spooner out, it suggests a candidate to succeed him. People who are advocating Senator Spooner and Governor LaFollette, will realize that this combination is not being considered by the Governor, or the men who are supposed to speak for him. The LaCrosse paper takes the Oshkosh Northwestern to task for supporting Spooner, and claims that the paper is getting ready to desert the Governor.

It is well understood by the friends of Senator Spooner, that he is not seeking the office, but it is equally well understood that the office is seeking him. He represents in the Senate, a larger constituency than the state of Wisconsin. He enjoys national fame and is closer to the people at large than any other member of the senate. He is in a broad sense the faithful servant of the people. As a leader and adviser, he has long enjoyed the confidence of the chief magistrate, and his loss from public life, would be a national loss the republican party of Wisconsin is under a sacred obligation, and the party can not afford to sacrifice it, to gratify personal ambition even when inspired by so great a man as the governor.

Senator Spooner must be returned and there will be no question about it. If the conservative element of the party is successful in the campaign.

IDEAL JANSVILLE

If there was anything overlooked at the discussion of the Twilight Club the other night, on Ideal Janesville, it was not apparent. It was generally conceded that the ladies were ideal and the people generally as near the standard, as could be expected. When the committee in charge finish their work on decorating the court house park, and iron bridges take the place of wooden structures, the only thing lacking will be the new government building, and marble stairways for the city hall, and both are in sight. The city is a goodly habitation and the people only lack wings to be angels.

An enthusiastic fisherman at Monterey caught a 28 pound carp last spring and he said the water was alive with big fish. Carp are good scavengers, and some man with an investigating mind has discovered that they spend a year between Milwaukee and Court Street bridges filling up and then start for Beloit. They find an obstruction at Monterey dam and so the line city is deprived of their company. Janesville has a corner on carp, and while it lasts there will be no need of a tank sewage system.

You may not be able to improve the river scenery in the business district but every lot owner may contribute to the beauty of the city by a little well directed effort. It isn't the few fine residences that make an ideal city but it is the intelligent care of all the property. Janesville will be at its best when individual responsibility is fully appreciated. Every street will be a boulevard when every property owner takes a little interest in the care and adornment of property.

The public garbage boxes for waste paper, suggested at the Twilight club the other night, are a good thing. The street, while public is the poorest kind of a dumping ground. A little care, and trifling expense, would add largely to street cleanliness. The plan should be adopted, and while there is no law to enforce it, people would very cheerfully comply, and the streets would be greatly improved.

Rev'd Vaughn, pastor of the Baptist church, is chairman of the committee on park improvements. It is estimated that \$75 is all that is necessary for the work contemplated. Quite a number contributed a dollar at the club on Tuesday night and the amount should be easily raised. The money will be well invested and the entire city benefited.

If you can't plant a tree, plant a sunflower. If you don't like sunflowers, plant a morning glory. If the morning glory don't grow plant a violet. If you haven't any place to cultivate trees or flowers, to beautify the city, put on a happy smile, because you don't have to pay taxes.

The Twilight club is a good organization. The only thing it lacks is room to accommodate at least 100 more members.

Solely Responsible.
The Oshkosh Northwestern observes that "on him (Gov. LaFollette) de-

pends to a large extent the unification of the party once more in a harmonious and satisfactory manner." solely responsible, primarily at least, for the schism which exists in the party. We shall, however, be both surprised and gratified if he makes an effort towards closing up the breach which he has caused, because it is extremely doubtful if he has a single element of the disposition needful to that undertaking. Otherwise, he would have been thereby restrained in the first place from precipitating the trouble which exists among republicans by his autocratic and domineering—intolerable as they have been to the great bulk of self-respecting members of the party.—Appleton Post.

PRESS COMMENT

Will it come to this pass that somebody will have to invent bladeless knives and prongless pitchforks for the exclusive use of United States senators?—Brooklyn Daily Eagle.

Madison Journal: There is a talk of senator Vilas for governor, and renewed talk of him as president of the university. That makes another Badger who will be urged to "speak!"

Beloit Free Press: Janesville is to have a post factory, and one enthusiastic stockholder is confident that only a short time will elapse before they will add postholes to the product of the plant.

Racine Journal: Senator Whitehead is a fair, square and level-headed man and as governor of this great state will serve the people well and honestly. With firm convictions himself yet with proper deference for those of others, his administration will be as near perfect as human infirmities will permit.

Medical Meeting at Beloit
The meeting of the Central Wisconsin Medical society which was held in Beloit on Tuesday last was one of unusual interest. Dr. G. D. Ladd, of Milwaukee was present by special invitation and read a valuable paper on "Intestinal Obstructions." Many other valuable papers were received by members of the society and discussions were animated and interesting. After the morning session the society was banqueted by Drs. Bennett and McCabe. The banquet was served at the beautiful residence of Dr. Bennett on Bluff street and was indeed an elegant affair, served in a faultless manner. Six beautiful young ladies served the eatables which added not a little to the pleasure of the feast. A fine literary program, prepared by Dr. E. C. Helms, who presided over the ceremonies, was called after the tables were cleaned and was much enjoyed.

Work on the City Hall
The city hall contractors are getting things in readiness to place the large flat stones, which form the steps for the main entrance, in position. The roofers are expected here today to prepare to put on the roof on the clock tower and also to put the copper ridges along the roof. Measurements were also taken today for the iron stairway, which was substituted for the wooden ones called for in the specifications. The Jeffries Co. have the contract for furnishing the interior wood finish and have much of it ready for delivery. The changing of the interior steps from wood to iron will take considerable of their contract away from them.

Trip Around the World
Beginning at 2 o'clock tomorrow afternoon caravans will leave the Y. M. C. A. building every fifteen minutes; taking tourists first to Mrs. Palmer's, to the United States, then to the Orient at Mrs. Leavitt's; from there across the river to Mrs. Sutherland's where England, Ireland and Scotland will be represented. Then tourists can see Germany at Mrs. C. L. Childs' before completing the trip. Round trip, including refreshments, 50 cents.

DISSOLUTION NOTICE
The Janesville Dental Parlors, conducted by Holsapple & Wells, has dissolved by mutual consent and the business will be conducted at the old stand by Dr. Holsapple, who will assume all obligations and collect all debts.
Dr. Wells has opened a new office at rooms 401-402 Jackman building.

BEGIN WORK ON THE NEW DEPOT

Fifty Men Are Busy Removing the Side Tracks and Clearing the Ground for Foundation.

The first move toward building the new Chicago, Milwaukee & St. Paul passenger station was made this morning when fifty men were put to work moving one of the side tracks which is now just where the depot will come. The track in question is two blocks in length and is being moved toward the south. It will probably be used during the construction of the station for storing cars loaded with material. The old freight station which was to be moved away from the grounds will be moved up near Rudolph's warehouse where there is a siding.

After a good deal of controversy and figuring it was decided by the officials of the road that it would be a bad thing to change the station as set forth by the plans, and will leave the main portion of the building between Academy and High streets and the baggage room between High and Jackson streets.

ST. PAUL MAKES A REDUCTION IN RATES

Railroad Commissioner Rice Secures Big Saving of Money to Cheese Dealers in State.

The Milwaukee road yesterday notified G. L. Rice, the state railroad commission at Madison, that the company had reduced the freight rates on cheese from all points between Janesville and Platteville, including the new Glarus branch. The Illinois Central is the competing line, and it is expected that this company will follow suit and reduce the rates.

The exact reduction has not been decided upon, but it is expected to be from 10 to 20 per cent. With these reductions the cheese dealers in Southern Wisconsin will be able to compete with Eastern dealers and there will be a saving of thousands of dollars each year. It is expected that the Illinois Central will announce the reduction of rates on its line within a day or so. Commissioner Rice is quite gratified at the outcome of the matter.

The principal stations on the Milwaukee road that will be benefited by the reductions are Hanover, Orfordville, Broadhead, Juda, Monroe, Brownstown, Graust, South Wayne, Burlington, Shullsburg, Mineral Point, Belmont, Calamine, Platteville, Albany, Monticello and New Glarus.

Several days ago the baseball team of the High school issued a challenge to the lawyers, doctors and business men of this city to play a game of ball. The challenge has been accepted and the game will be called tomorrow afternoon at 4 o'clock at Athletic park.

While it is admitted that the High school team is a good one, the professional and business men say that they have a nine that will make the High school boys look like twenty-nine cents.

It will be a hot game as there are some pretty good players among the professional and business men and they have some surprises in cold storage for the school boys.

MISSIONARY RALLY AT FIRST CHURCH

Methodists of Rock and Jefferson Counties Will Meet Here on Thursday, May 15.

On Thursday the 15th inst. a grand missionary rally will be held in the First M. E. church. The sessions will be held afternoon and evening. Rev. W. F. Oldham, D. D. of Chicago, missionary secretary will be present on the occasion.

In the afternoon Dr. Oldham will answer questions relative to missionary work, and in the evening at 7:30 he will deliver a missionary address.

He was born in India and spent many years in that vast missionary field. He is one of the most eloquent and impressive speakers of the Methodist Episcopal church and it is a rare treat seldom afforded to a city of this size to have such a strong advocate of missions visit it.

Representatives from the following church will be present: First and Court Street M. E. churches of Janesville, Edgerton, Stoughton, Evansville, Footville, Orfordville, Beloit, Clinton, Sharon, Shopshire, Allens Grove, Lake Geneva, Milton Junction, Lake Mills, Jefferson, Johnson's Creek and Fort Atkinson.

The Ladies' Aid society of First church will serve a ten cent tea during the interval between the afternoon and the evening sessions, for the benefit of visitors and of the people of the city who may wish to remain at the church. The visitors of the various churches included in this missionary rally will notify Rev. J. Churm, pastor of First church as to how many will attend from each church, so that entertainment may be provided for all who come.

Every woman in the country ought to know about

Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy. A druggist of Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it."

A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

WHEN YOUR APPETITE FAILS YOU

It's high time to take a health inventory, rather than heap melancholy abuse on the waiter and the eating house. If normal, your appetite is sound. If not, it isn't, that's all.

From an Authority:

"In my whole experience I have never known a case of tuberculosis of the lungs that has not been preceded by chronic dyspepsia. I have never known a case of cancer, Bright's disease or diabetes that did not follow upon some form of stomach disturbance.

Nine out of every ten persons have dyspepsia. It is the first manifestation of lowered vitality.

Errors of eating have filled the hospitals, asylums and cemeteries. They are the true explanations of universal sickness."

ROYAL ARCANUM ELECTS OFFICERS

Grand Council of State of Wisconsin
Concludes Its Session at Milwaukee—Reports Made.

Milwaukee Wis., May 1—The Grand Council of the Royal Arcanum for the state of Wisconsin, was in session here yesterday and adjourned last night with a banquet.

Reports were received at the afternoon session, which was conducted much upon the plan of a teachers' institute, the aim being to secure as free an interchange as possible of ideas as to the best plans for securing the rapid growth of the order. The importance of cultivating the fraternal feature was especially emphasized.

Officers were elected at the evening session for the coming year as follows:

Grand Regent—H. P. Moore, Wauwatosa.
Grand Vice Regent—Dr. W. H. Chilton, Appleton.
Grand Orator—C. M. Boyler, Wausau.
Grand Secretary—C. D. Simonds, Milwaukee.
Grand Treasurer—D. E. Cameron, Milwaukee.
Grand Chaplain—Fred Gibson, Fond du Lac.
Grand Guide—H. W. Johnson, Menomonie.
Grand Warden—Hert E. De Yo, Eau Claire.
Grand Sentry—T. H. Ryan, Merrill.
Grand Trustees—W. G. Oliver, Oconto; L. G. Schiller, Green Bay; F. C. Arnold, Oshkosh.

The report of the grand secretary, C. D. Simonds, showed that the total membership in the state Jan 1, 1902, was 3,925, showing a net gain of 168 during the year. Two new councils were instituted during the year making the total 47. There were 51 deaths in the state membership during the last year, and the sum of \$139,500 was paid to the beneficiaries. The total sum contributed to the benefit fund of the order by Wisconsin members was \$117,106.40.

It was also pointed out that the Royal Arcanum is now paying to widows and orphans an average of \$18,000 per day and has paid to beneficiaries since organization the sum of \$70,000,000. The matter of contributions to the fund to erect a "temple of fraternity" at the St. Louis exposition came up for discussion and the sentiment was expressed that the Royal Arcanum should have a hand in the enterprise. The supreme council has already requested contributions from the grand councils for the purpose.

...Tomorrow... ...Saturday...

For these two days we will give the public the benefit of prices that prevailed at our fifth anniversary sale last week. We do this on account of rain that interfered with the sale last week. This reduction sale pertains to both the shoe store and Clothing Department and will close Saturday night.

Don't Forget --

The Old Reliable when you want Shoes or Oxfords. The store that always carried the largest stock and latest styles. Sold you Shoes that fit when you couldn't find it elsewhere and made prices right. Buying Direct from manufacturers gives us this advantage. When we say from manufacturers, it means direct from factories in the east, not from jobbers who handle short lines of manufacturers' goods. We have all sizes in Men's, Women's and Children's Shoes and New Opening The largest line of the latest Oxfords in the city.

Plenty of Coal...

Some dealers have been unable to get the coal they need. We always have enough to supply the demand.

Just now we have a little more than usual, and would like to sell one or a dozen tons. Our coal is carefully handled, saving fuel and keeping your place clean.

We make prompt deliveries to all portions of the city. Just phone us.
